WHAT DO YOU SEE AS THE RESPONSIBILITIES OF THIS COMMISSION AND WHAT DO YOU HOPE TO ACCOMPLISH IF APPOINTED?
Responsibilities include recommendations to Council regarding airport issues, fixed base operations, FAA compliance with regulations, environmental issues, and long term planning. With a new City Council, new directions and new ideas, I would like to be a part of the regeneration of excitement for our Airport. My interest also involves marketing the airport facilities, enhancing general aviation and again discussing the possibilities of re-establishing commercial service. Having already been through the process of bringing in two previous services (Reno Air and Allegiant), I have the historical knowledge and background to already know what works and what does not work. I am also very aware of what this community will consider and wish to participate.

October 18, 2010

1901 Airport Road, Suite 206
South Lake Tahoe, CA 96150-6324

Dear Susan Alessi:

My name is Isaac (Ike) Marr and I am currently working with Golden Capitol and the South Lake Tahoe TIES Program (Tahoe Inventors Entrepreneur Services) in the formation of a nonprofit administrative company. The company mission will be to stimulate economic development through air service dynamics and working hand-in-hand with local governments, businesses and interest groups in the formation of an Airline Guarantee Program.

Managed by this company, the Airline Guarantee Program will negotiate with major airlines to offer adequate and cost-effective flights into the Lake Tahoe regional airport through a practice of revenue guarantees. Revenue guarantees are contracts executed between community entities and airlines, where a particular community entity pays the difference between the flight cost and the associated revenue generated by the flight if the revenues produced fall short of the contract amounts. Revenue guarantees allow airlines to share the financial risk of certain flight routes, making the route more attractive to the airline. Since the Lake Tahoe economies are dependent on tourism, relying specifically on destination visitors, revenue guarantees through the Airline Guarantee Program expand and create travel opportunities that wouldn’t otherwise be available.

I believe the reintroduction of commercial air service into the Lake Tahoe basin is crucial for rebranding South Lake Tahoe away from a “drive-in” gambling economy, and toward the world class ecotourism destination of which it is. My reasoning for wanting to be a part of this Airport Commission, is to become more familiar with the rules and protocol of our city’s government and airport so that I may move more easily through its channels and further my goal of bettering the economic footprint of our beautiful city for our children.

Warmest Regards,

Isaac (Ike) Marr

Education
Fullerton College - A.A. - Dental Assisting
UCLA – Vocational Teaching Credential
I have continued my education over the last 35 years with many post graduate courses. Many of these courses have focused on improved communication.

Experience
My experience over my lifetime has been mostly focused in the dental profession. I have taught at several community colleges and was employed in a dental practice in management for over 30 years. In South Lake Tahoe I have managed a retail business.

Community Involvement
I currently the Vice Chair of the Planning Commission, having served for four years. My continued community involvement has given me an informed voice on the commission.
City of South Lake Tahoe General Plan Update Citizen’s Advisory Committee
City of South Lake Tahoe Public Working Groups for Pathway 2007
Tahoe-Tallac Association
Lake Tahoe Shakespeare Festival
Lake Tahoe Environmental Summit

While living in Laguna Beach for over thirty years I assumed leadership roles in the following organizations:
Sandpipers of Hoag Memorial Hospital
Hoag Hospital Foundation Board
Hoag Hospital Capital Campaign Hoag Cancer Center
Schoolpower – Provided additional funding for Laguna Beach Unified School District
Laguna Beach Unified School District Capital Campaign
PTA Board Member, elementary to high school
National Charity League
Responsibilities & Accomplishments
I thank you for the honor of serving the City for the last four years on the Planning Commission. Working on the Pathway process by serving the City on the Public Working Group has given me knowledge of the workings of TRPA which has been an asset on the Planning Commission. That experience also has given me insight into many projects that have come before the Commission and allowed me to give a much more informed decision regarding certain projects. I have also been actively involved with the General Plan Update and have attended the public meetings. Many issues facing the Commission, Pathways and the General Plan Update are intertwined and they have allowed me to be an informed participant.

The responsibility of a Planning Commission is to be prepared and informed on issues that come before the Commission. By being actively involved in the community and knowledgeable of City issues the decisions I have made have been informed on many fronts.

I am very interested in the General Plan Update and would like to continue to see the Plan to its completion.

I would be honored to serve on the Planning Commission for 2011 – 2012.

Subject: Sustainability Commission

Dear Susan Alessi, Ellen Palazzo, & City Council,

Attached is my City of South Lake Tahoe Volunteer Application for the Sustainability Commission. After serving one full 2-year term I am again very interested in participating on the Sustainability Commission in either the Education, Environmental Advocate, or General Public categories. With a strong background in energy, environmental, and sustainability planning both academically and professionally, I am excited to work on a Commission within my own community on such important issues facing our City both now and through the future. While, I work primarily in the land use and environmental consulting field as a professional I am always extremely interested in applying my skill set and understanding of the environmental issues facing the City of South Lake Tahoe for the benefit of the public. I believe the main responsibility for a Sustainability Commission member is to listen to the our community and carefully serve their interests, ideas, and needs by making recommendations to City Council regarding the implementation of various sustainability policies, plans, and projects as they align with the Sustainability Vision and Mission and its Action Plan.

Serving on the Commission over the past two years has been an exciting and rewarding experience for me and I look forward to working with our next terms Commission members, the City staff and the Council in the future. Thank you for your consideration.

Cordially,

Juliana Prosperi
